### **About Transition Capital Partners**

Transition Capital Partners ("TCP") is a 16 year old Dallas-based private equity firm investing in leveraged recapitalizations and management buyouts of well-managed, entrepreneurial, lower middle market service oriented businesses. TCP is particularly successful investing in high growth companies where additional management and strategic resources are required by the existing ownership group. We typically provide the entrepreneur an opportunity to gain liquidity, while maintaining a significant stake in the business for future upside, and if desired, a reduced management role.
